Start with the right brief.

Three checks before you shape the programme.

01 Your group

For conferences and incentives, at least 75% of participants must come from abroad. Competitions and sales workshops require at least 50 participants from abroad.

02 Your programme

An excursion is a basic scheme requirement. Prepare your Cyprus nights, location and season; confirm the category-specific programme rules.

03 Your applicant

Check applicant eligibility and de minimis conditions. Exclusions include certain mainly state-funded bodies and EU-project partner meetings; the full rules prevail.

One CPC Events team. The complete programme.

Destination management and PCO services: venues, hotels, transfers, delegate logistics, excursion planning and agreed documentation support.

EventsOnWheels is CPC Events' in-house technical production arm for AV, lighting, staging, interpretation and hybrid requirements. Technical services are scoped commercially; funding of specific costs is not guaranteed.

Support is subject to official criteria, formal approval, available funds and the Deputy Ministry's final decision. CPC Events is not the granting authority and cannot guarantee approval or the amount. A preliminary review is not scheme approval.
